In most revenge stories, the character seeking revenge is given a strong reason to exact revenge. Usually, this reason is universally relatable to the reader and therefore the reader takes their side and wants to see their revenge pan out. However, in Medea, the formula on its head. By the first scene, the play sets up why the main character, Medea, is the desire to see justice for her actions and those of her husband, Jason. Jason has left her and their children, daughter of Creon, king of Corinth. Naturally, the audience sides with Medea’s actions as morally acceptable. However, when it comes down to the scheme, the sympathy that the audience once had dissipates. It is clear that Medea wants to commit murder, but because she wants to murder her own children, it completely breaks Jason. Compared to Medea’s brutality, Jason then takes the sympathetic role. What makes her actions even worse is how in the grand scheme of events, the murder of her children
